ACID DOESN'T BURN A HOLE IN YOUR GENES

A recent report in the October issue of the Journal of the American Association for the Advancement of Science, states that after extensive research into the problem of chromosome damage by LSD, the Donner Laboratory of Medical Physics and Biophysics, University of California, Berkeley, made this statement: Leukocyte cultures from eight human subjects who had had recent exposure to large doses of lysergic acid diethylamide were examined for chromosome abnormalities. The number of abnormalities was not significantly greater than that in control cultures.

Previous studies have not been as carefully controlled as the one presented there.

Leukemia can cause chromosome damage, hence some newspapers have published the conclusion that LSD may cause Leukemia. This is faulty logic.

No studies to date have shown any effect on offspring of parents (human or animal) which have taken LSD before pregnancy.

LSD like many drugs can cause deformities and abortions if taken during pregnancy (Thalidamide is the classic example). The dose-response curve in these studies may indicate that even when LSD is given during pregnancy, the effects are due to systemic shock rather than a drug effect *per se*.

It should also be borne in mind that some of chromosomal defect occurs in all normal people at a small level of incidence. What the studies that claim to find damage show is an increase in this level of occurrence. Although the increase reportedly triples the normal level of damage, the absolute amount of damage is still very small.

I am you, you are me, what are we doing to each other.

OUR BROTHERS got uptight today Tuesday, November 21, and came over to Old Town and put some bricks through OUR WINDOWS. You ask what's mine. What is? How can we editorialize against this action of our black brothers? They are poor. They are oppressed. Smashing windows on Wells Street is a reflex action to the shit they have to take every day. We don't believe in the effectiveness of violence as a tactic. THEY'VE GOT ALL THE GUNS! But hippy shopkeeper, hippy exploiter, sunshine hippy, hippy on the street, what have you done to help them get what you inherited by incarnation as a white American? Let he among you who is without sin pick up that brick and throw it back.

Some of the places hit were favorites of ours: Barbara's Bookstore is more than a bookstore, a place to browse, a place to spend some time in out of the cold or constant flow of tourists or whatever. Mr. Al's and Little Pleasures are good places to eat; good food and good service. Help them.

I shall go, when the sun hangs red and ripe,
 Over seas of bone in a naked ship
 With eggshell voices to color my face;
 I shall sing with the sun in the house of glass.
 Now quiet on a wooden chair
 In the house of wood I sit and hear
 The wooden windows strain and fight
 The wind that shakes them. Wind or light?

Dear Seed:

Just seen your issue no. 8 which is very encouraging, but one or two small points; the super pot recipe, though reprinted from the East Village Other was reprinted by them from International Times, and Bradley Martin, mentioned in the column is currently in jail on a pot charge. The reference to the Beatles buying an island in Greece isn't strictly accurate in that they never bought it, and secondly they did not place the full page ad in the London Times - they were merely signatories of it along with sixty others. Best of luck with Seed.

Best wishes,
Miles

Some flashes from Liberation News Service--

Col. George Creel, Assistant Chief of the Army's public information is quoted as saying of the Oct 21 demonstration, "There were more men infiltrated by us into the crowd at this demonstration than at any event I can remember. Our infiltrators were the worst looking ones out there, They were in radio contact with each other and with the Army operations center in the Pentagon," he said, and they acted in disciplined units, with certain people designated to make decisions."

As of Nov. 10 seven people arrested during the Pentagon Confrontation are still in jail, and stories of brutality and mistreatment of prisoners continue to flow in...but what can you expect?

U. of C. Chaplain William Sloan Coffin pitched a sermon for our side in the Rockefeller Chapel Sunday Nov. 12 - afterwards Brook Smith a 1st year divinity student announced to the congregation his intention of turning in his draft card, he was joined by five others as a hymn blared out from the organ as part of a pre-arranged demonstration. During the hymn three more draft-eligibles arose spontaneously to return their cards.

LBJ was burned in effigy in N. Y. C. Nov. 8, one block away from the Americana Hotel shortly after he spoke there.

Lady Bird Johnson in an interview with THE EVENING STAR described life in the executive mansion as intense. "Awareness of this house is like a shot of adrenalin." The family, she said, "has drawn closer together than we have ever been in our lives--there's just four of us in the same boat."

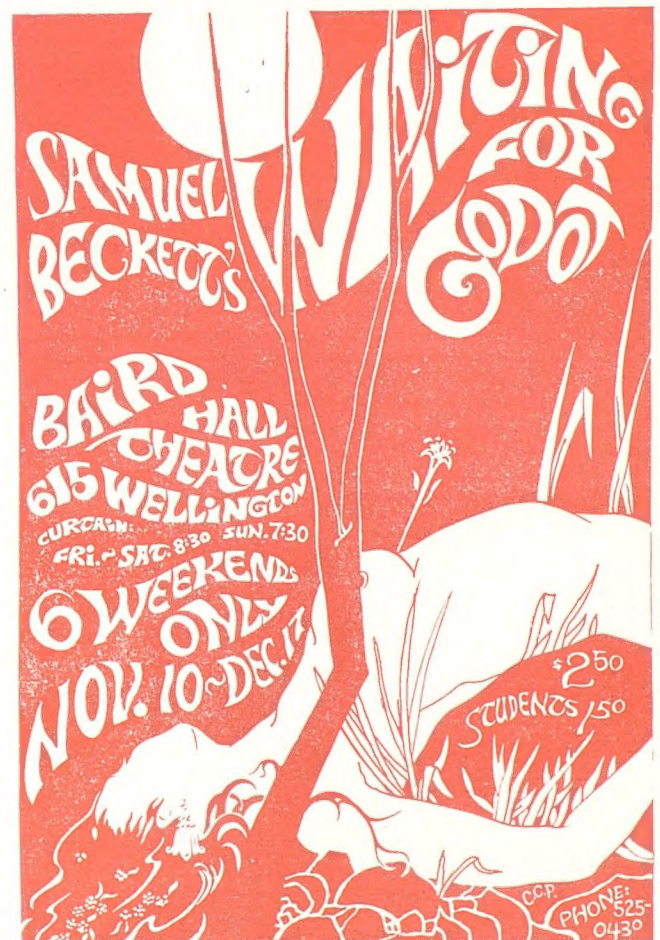

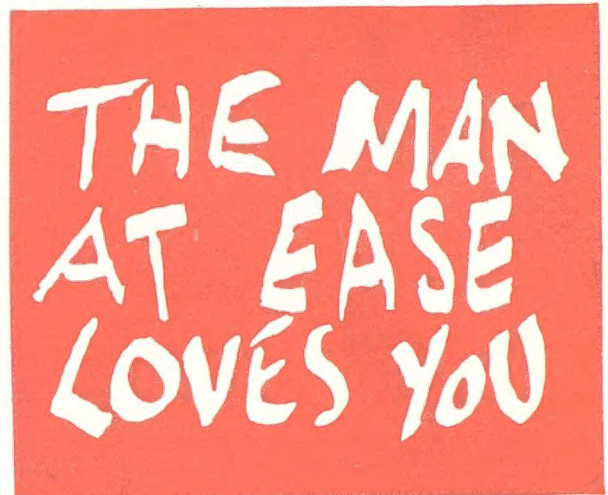

"In pursuit of its policy to expand industrial exports, Guyana offers skilled and semi-skilled labor at low rates."

In Boston 300 Boston U. students sat in and obstructed Dow Chemical Co. recruiters. The demonstrators received heavy support from the faculty. Next day 60 men turned in their draft cards at a multifaith service at the West End Methodist Church was interrupted by a fracas between draft resisters and neighborhood dock workers.

cut a lemon in half, put in pan, bake at 250 degrees F for about 10-15 minutes, take out of oven, squeeze lemon into pan, replace in oven, until completely dry. throw away dried skins, scrape up black substance in pan, grind up, mix with tobacco in a cigarette. it works. watch out for limes.

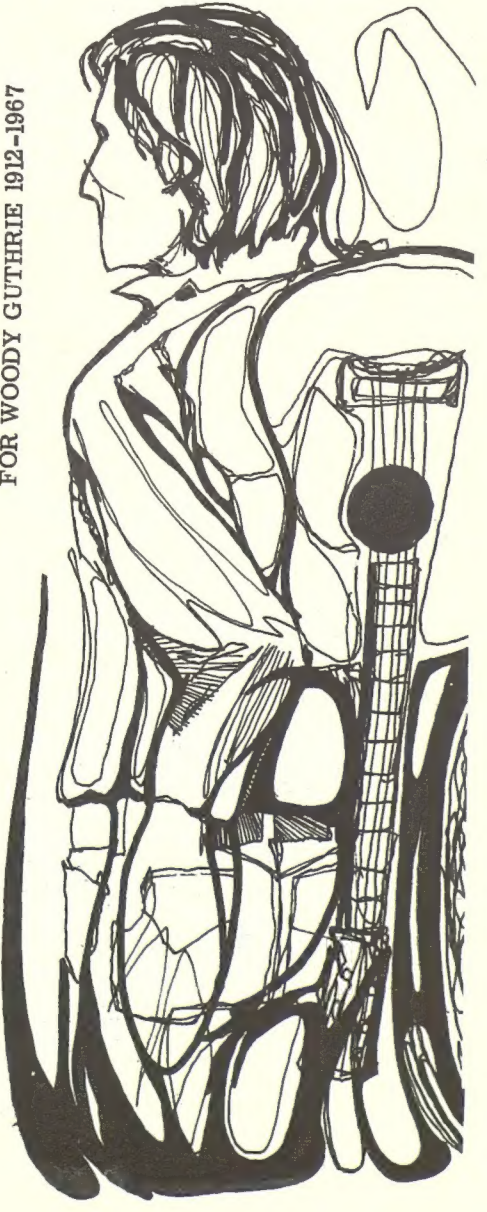

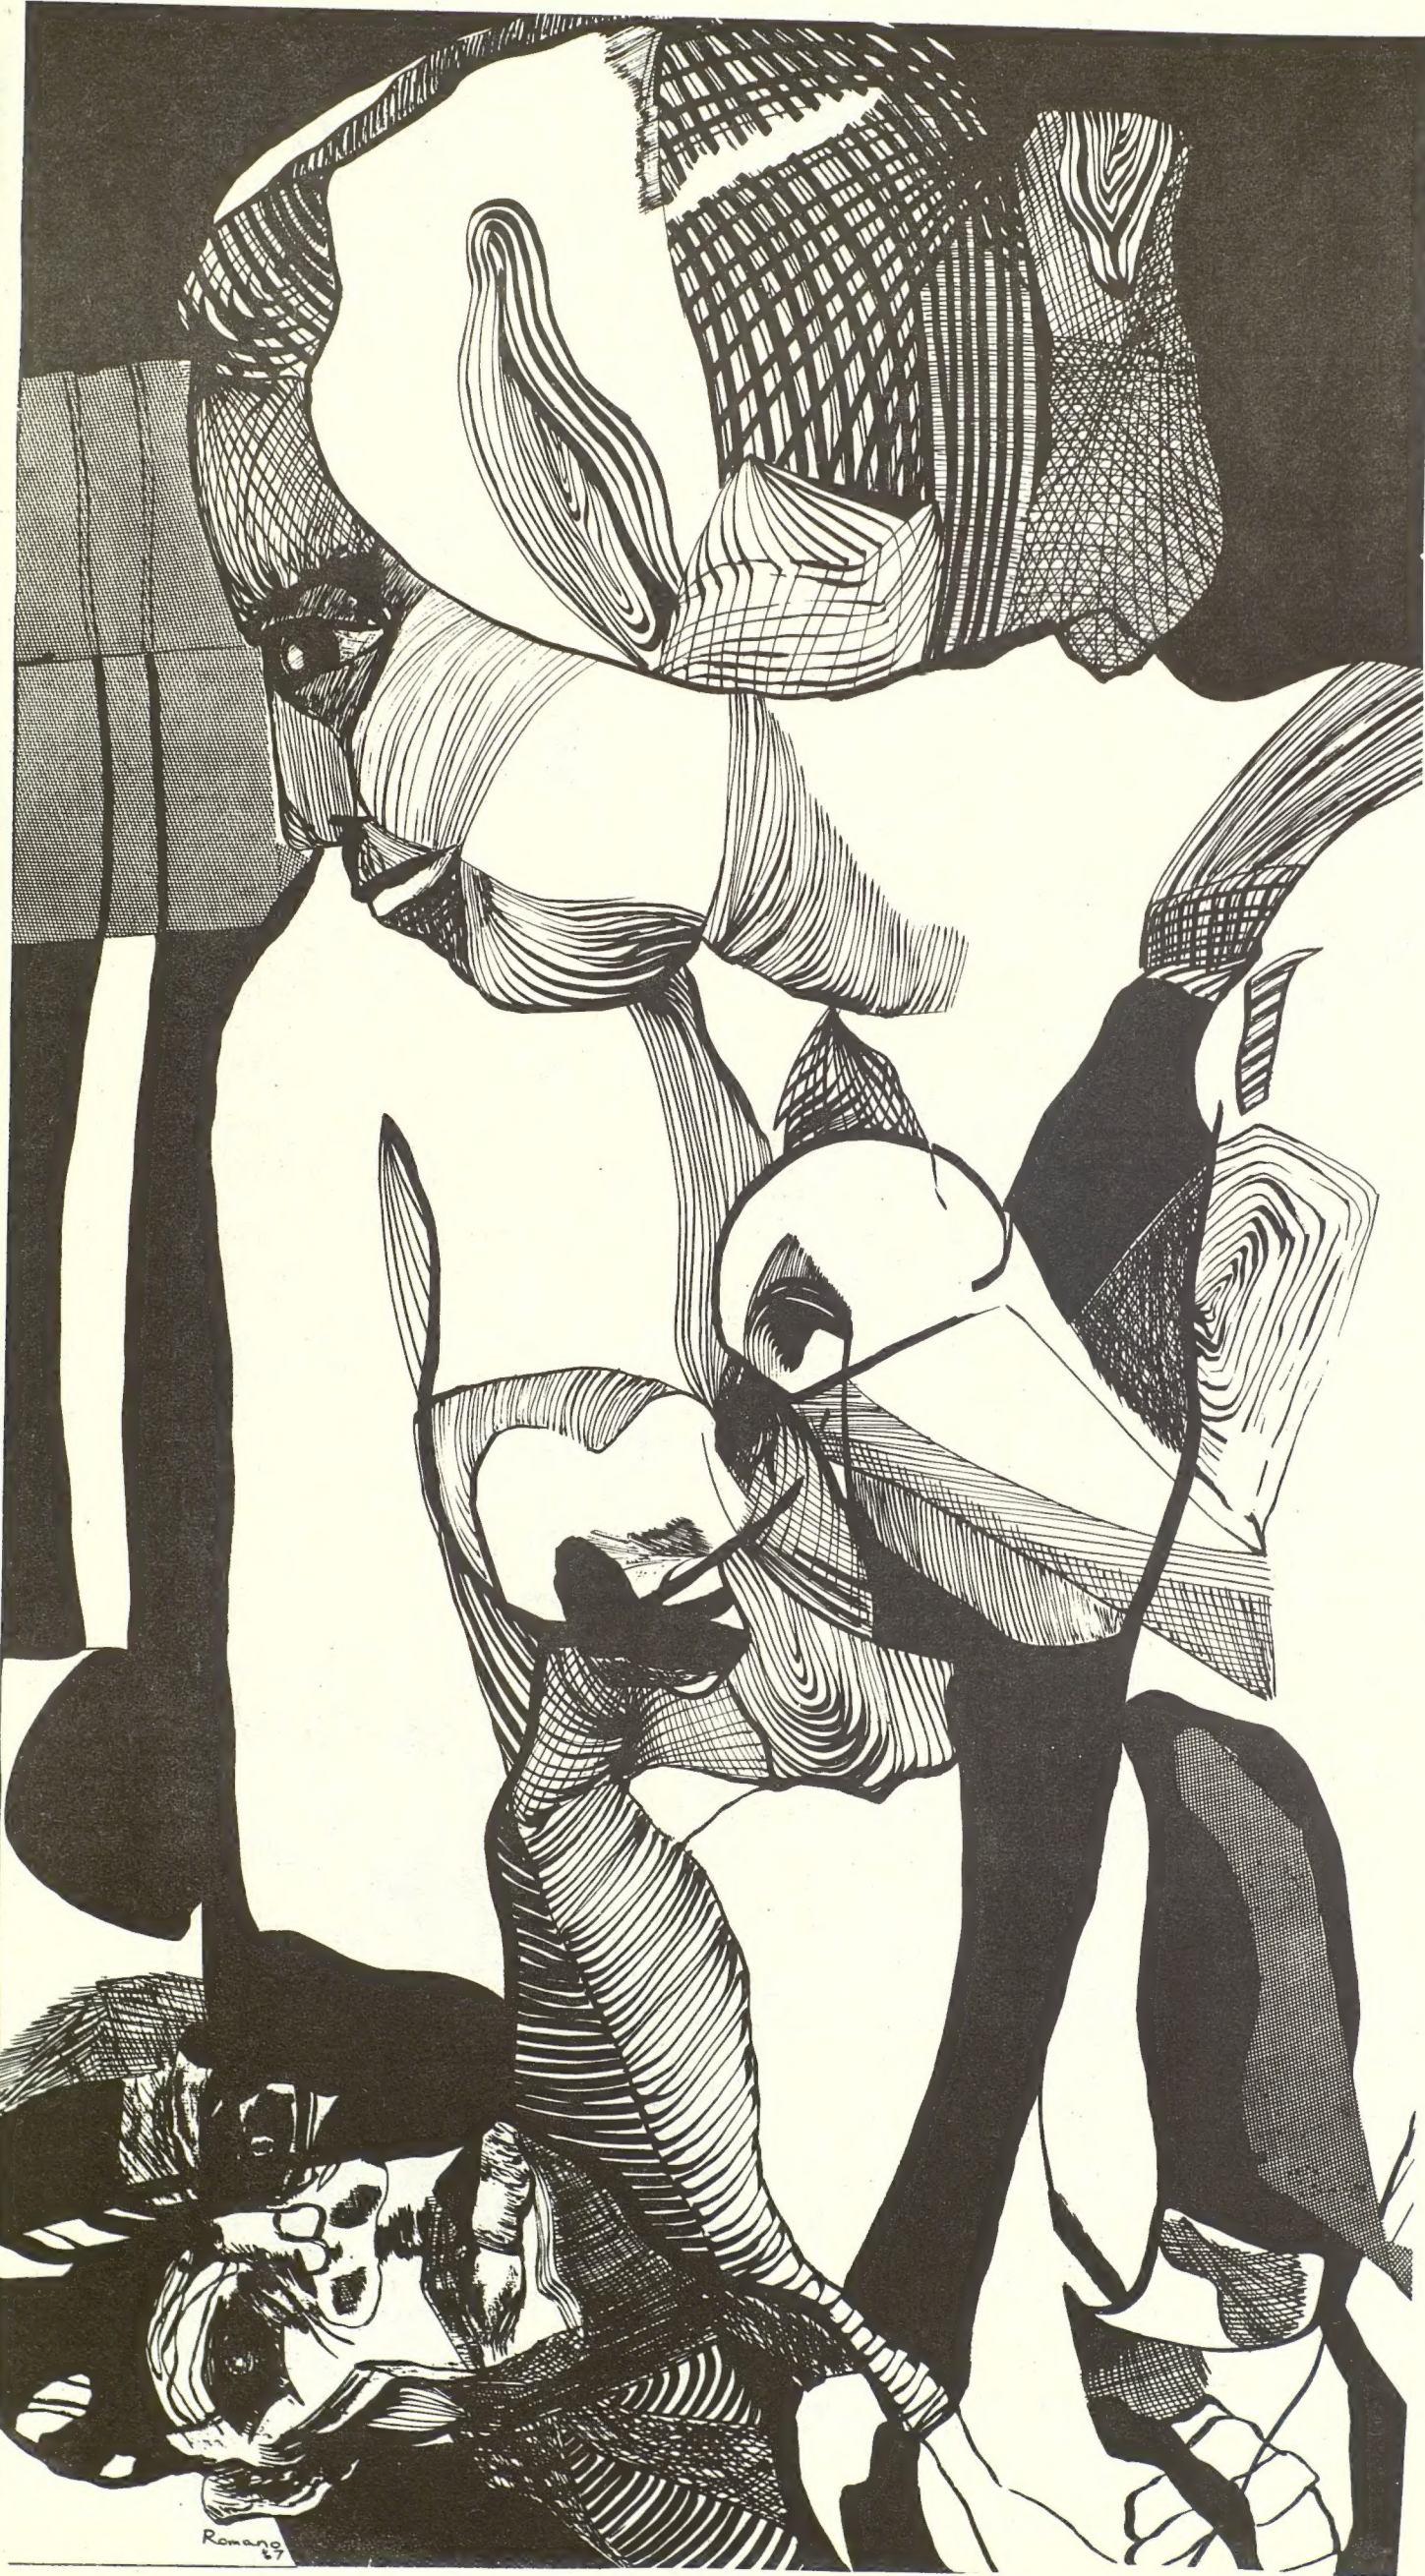

lavender blossoms are nice with a menthol tobacco. be careful, as it seems to increase blood pressure. i dont know what the active agent.

But he who kisses the joy as it flies

A reader who signs himself A. Straight believes that J. Edgar Hoover is dead. He bases his conclusion on photographs appearing in the July 1967 issue of The Investigator, official publication of the F.B.I. Recreation Association. Sure enough, in every picture save one, J.E. exhibits all the animation and leathery texture of an unwrapped mummy. Straight suggests that Wells St. be renamed Hoover Ave. in honor of "one who has made it possible to enjoy life free from oppression and subversion, rather than a military man who led a small band of settlers into a massacre on the shore of Lake Michigan."??

Dear Sirs:

I read value judgements in the Seed tantamount to raping the soul of ethnic music, a page of inner violence seething with self-annihilation. Through name-dropping that author proclaimed himself an intellectual, proceeding to add more confusion to an article called "The Invisible Axe of Jim Hendrix" which might have been better titled "Franklin Rosemont's Maggots". He equated the inspired passionate fires of esthetics, language of the spirit, with sniping destruction called liberation--so blinded as the Marquis de Sade who preferred that which is base only. No man appreciates musical outpouring exploited in plea of a political bullet-riddled critique. Colored peoples also hum to their loved ones, croon to their babies in the hush of mystic feeling and pay musical tribute to majestic NOBILITY in man. "Reality hideous," as he wrote? NO! Such distortions which fear life perpetuate the myth of a white saviour. Beauty surrounds us and WE are beautiful to live, let live, and ROOT as nature wills regardless of the Rosemont axe.

Una Mexicana,
Maria Marquez Off

the father of his country. i wonder if he would disown his offspring were he to know of its actions. it is a very sad thing to see your own works changed, distorted, altered by those who assume command after you. one's own goals would seem to be the most right, most just, most fair, most true in every way. his treaties with the Indians have all been broken. his advice to his countrymen has not been heeded. would he now still fight as hard. would he show the same courage in valley forge if he were to know of hiroshima. father of his country. would you have used napalm on the british, george? perhaps. i wonder if he would riot in detroit. i doubt if sam adams would have stood still for income tax. not after all that tea in boston harbor. its hard to say what one of the old ones would do if here and now. do you think george there would agree to the draft? the war in viet nam????????? you know he used to grow grass on his plantation. would he like it to be illegal. george was neither all good nor bad. he did hold slaves. i think he let them free as part of his will. how about that. of course, he had no longer any use for them, then. i dont know really what kind of man he was, except a brave one; and he is reported to have been very honest. i just wonder what he would say if he were here now. ????????????????????????????????? (other side of an envelope)

Dear Seed,

you have a grand paper, a "little better all the time." that is one of the things i wanted to say to you; in thanks for bringing some light to a city i love for all its beauty and its evil. a very nice place to live; however, i wouldn't want to visit here. your stuff-format, content, whatever else is all constantly improving. i love you for what youve done, i know it is hard, we-i & friends tried this past spring to do something like it, failure, paranoia strikes again. luck to you in future , all of yours, all.

i am in the painful process of dropping in again. i can live on love myself, but i don't think i could feed a child with only that. i love my love too much not to want her children, what else is there? jobs are how you look at it, anyway. death of the hippy? i dunno, how about going really underground, cut hair, pressed shirt, tab collar, infiltrate the middle class. go to cocktail parties, tell them you don't drink, they ask why, tell them your religion, why again, then you convert them. blow their minds.

do you know that there is about 3 kilotons worth of nuclear and thermodynamic explosive, in arsenals around the earth, for every person on the planet. 3kt per capita, every one of the 3 or 4 billion of us. how about that. what are you going to do with your share?

it is a very sad thing that letters have to be sealed. it is even sadder that the seals are not respected in the post. this whole society is filled with people who neither trust nor respect another. we have no longer even the honor of thieves. ayn rand is surely the true prophet of this america. objective is the word. why pretend love where there is none. why falsify? this man, our man, is only out for himself anyway; this should at least be in theory the virtue it is in practise. realize that unless there is a sudden and general change, somewhere along the line, the selfish will destroy the selfless, merely by the workings of evolution. unless love attacks the evil, the evil will destroy the love, simply by growth. nothin in particular need be attacked, if everything is attacked as a matter of course. the competitive society predisposes its members to combatitiveness. know that the destroyer does not need to know his evil. he may act from reason, and know himself just. and this man is one who cannot be changed, only destroyed.
